Governor, you ran in the last election on a platform that included "Protecting Our Environment" and "Ending the Mismanagement in Transportation Infrastructure." The Route 80 Rockfall Mitigation exemplifies both. It will permanently scar the beautiful Delaware Water Gap and it is an example of gross mismanagement of federal dollars. The $65 million for this project would be better spent on transportation efforts to fix our crumbling roads, decaying bridges, and to complete the Gateway project. I respectfully request that you stop the project.

Sincerely,
