Knowlton Township's Emergency Management staff will be distributing free N95 masks to Knowlton residents beginning tomorrow. N95 masks are considered the gold standard in personal protective equipment; they block 95% of large and small particles by using an electrostatic filter. N95 masks are used to control exposures to infections, such as Covid-19, that are transmitted through the air. Edges of the respirator are designed to form a seal around the nose and mouth and must be worn properly for full efficacy.

The masks were obtained by the Knowlton Township Committee through a grant.

Residents are limited to 5 masks per household and will be asked to sign for acceptance of them. This offer is available to Knowlton residents only. Please enter the firehouse through the main door, which will have a sign on it.

The masks can be picked up on any Sunday or Monday from the Knowlton Firehouse at the hours listed above.
